- MHL™ (Mobile High-Definition Link) connectivity
- SD card slot and USB port allow multiple formats playback

Enable wireless projection

- Mirror display via Miracast™
- Digital home multimedia sharing – DLNA
- HDMI® digital connectivity

Presentation to Go

The K137i offers 2 GB of internal memory, a micro SD card reader and USB multimedia readers that enable the Presentation To Go function: Full access to photos, videos, music and Office documents (PowerPoint, Excel, Word and PDF), directly from the projector — no need for a laptop PC or video player!

Acer ColorSafe II

Acer projectors that feature ColorSafe II are virtually immune to color decay — the yellow or green tint of images displayed by some projectors that have been used for extended periods of time. Acer projectors with ColorSafe II take advantage of DLP® technology and Acer's unique optics-based color-compensation technology to guarantee picture integrity even after prolonged use. The resulting extended lifespan and consistent image quality lower the total cost of ownership.

Acer EcoProjection

Acer EcoProjection with ExtremeEco is a complete environment-friendly power management solution that reduces standby power consumption by up to 70%. Also featured in the Acer EcoProjection suite is Acer ePower Management for customized power-saving configurations.

About Acer

Established in 1976, Acer is an information and communication technology company dedicated to the research, design, marketing, sale and support of innovative products that enhance people's lives. Acer's green supply chain delivers environmentally friendly PCs, displays, projectors, servers, tablets and smartphones — tools our customers need to explore beyond limits and experience more. Ranked No. 3 for notebooks globally (IDC 2012), Acer employs 8,000 people, and 2012 revenues reached US\$14.7 billion. Please visit www.acer.com for more information.
