Introduction

The Atlona **AT-HDVS-200-TX** is a 3×1 switcher with display control for HDMI and VGA transmission over Ethernet-enabled HDBaseT™. It features two HDMI inputs and a VGA input with 3.5mm audio connector. The AT-HDVS-200-TX combines the benefits of a switcher with built-in auto-switching and the advantages of extended-distance HDBaseT signal transmission over a single cable. HDMI signals up to 4K/UHD @ 60Hz with embedded audio, VGA input signals up to 1920x1200, and control signals can be extended up to 330 feet (100 meters). The switcher enables automatic display on/off, auto-switching, third-party control, plus other control features. The switcher receives power from the AT-HDVS-200-RX scaler receiver via Power over Ethernet and together they create a standalone AV switching system with scaling for classrooms and huddle rooms. HDVS-200 series devices are also useful as components in larger systems utilizing switchers such as the AT-UHD-CLSO-824 matrix switcher where they are used as input/output modules. Button pushes are transmitted via IP to any IP based control system or IP controllable device. When used with the AT-HDVS-200-RX, IP commands are converted to RS-232 or CEC commands for use with most displays.

The Atlona **AT-HDVS-200-TX-PSK** is identical to the AT-HDVS-200-TX, with the addition of an external power supply. This makes it ideal for extending AV and control directly to a projector with an HDBaseT input. The AT-HDVS-200-TX-PSK can serve as the central component of a small, automated AV system through automatic input selection, and by sending RS-232 or Ethernet control commands to the projector. With automatic display control capability, the AT-HDVS-200-TX-PSK can power the projector on or off whenever a source is connected or disconnected from the unit.

Applications

- Simple yet complete AV systems with HDBaseT-equipped projectors and flat-panel displays.
- Installations in which HDVS-200 Series transmitters are to be used with third-party HDBaseT devices.

Key Features

3×1 HDBaseT switcher

- Features two HDMI inputs plus a VGA input with 3.5mm audio connector.

- Allows advanced HDMI display devices to be used with legacy VGA sources.

Ethernet enabled, HDBaseT extension

- Transmits IP and HDMI signals up to 330 feet (100 meters) @ 1080p and 330 feet (100 meters) @ 4K/UHD using CAT6a/7 cable.

- Uses easy-to-integrate category cable for low-cost, reliable system installation.

Auto-switching

- Selects active input when sources are connected or if there is a change in source power status.

- Eliminates need for complex control system in small AV systems.

TCP/IP and RS-232 control

- Flexible control options for compatibility with third-party control systems. RS-232 controlled from HDBaseT connection.

- Reduces integration time and costs.

Front panel Input Select button

- Overrides auto-switching when two active sources are present.

- Simple manual control allows presenter to maintain control of AV system.

Auto display control

- Automatically changes projector power state based on active or standby mode of scaler. Control signals transmitted via IP, RS-232, or CEC.

- Eliminates need for complex control system in small AV systems. Enables display and volume control with AT-UHD-CLSO-824. CEC enables control of low-cost consumer displays.

Front panel input selection and on/off controls

- Remotely controls display power state; provides alternate 'Display Mute' mode.

- Eliminates need for manual operation of display or use of IR remote control.

Front panel volume control

- Remotely controls audio volume; provides 'Mute' mode.

- Eliminates need for manual operation of display or use of IR remote control.

Front panel power and input selection status LEDs

- LED indicators provide power and input selection status information.

- Provides easy setup and troubleshooting.

Local AC-powered version of AT-HDVS-200-TX

- Includes external power supply (**AT-HDVS-200-TX-PSK** only) – ideal for point-to-point installations with an HDBaseT-equipped projector.

- Also can be powered via PoE – provides an additional powering option through a compatible Atlona HDBaseT-equipped device, or the AT-PS-POE power injector.

Award-winning 10 year limited product warranty

- Ensures long-term product reliability and performance in commercial and residential systems.

- Specify, purchase, and install with confidence.
